

Peter S Gorgone

Professional Full Stack Web Developer

☎ (424) 241-9327 | @peter@peltronic.com | 🔗 github.com/peltronic | 📍 Las Vegas, NV

SUMMARY

Full stack web developer passionate about building web applications using modern technologies and best practices. Firm adherent to test-driven design.

EDUCATION

University of Washington, Seattle WA — Masters in Electrical Engineering
Wesleyan University, Middletown CT — B.A. in physics

EXPERIENCE

AllFans, Las Vegas, NV — Chief Architect & Dev Lead

2021 | contract

Architected and developed social, content-based subscription website similar in functionality to OnlyFans. Designed database schema and Rest-ful API to implement real-time chat, content feeds, storybar, and Dropbox-style media storage. Interviewed and trained several new hires for both front-end and full stack positions.

Laravel 8 + PHP 7 | MySQL8 | VueJS | EC2 + RDS | Restful API
<http://allfans.com>

Taxaroo, New York, NY — Full-Stack Node Developer

2020 | contract

Developed several new features for a SAAS accounting and tax management app, including Enhanced Knowledge-Base-Authentication and Stripe API integration to support various subscription plans.

NodeJS + Express + NestJS | Postgres + Sequelize | React+jQuery | Restful API
<http://taxaroo.com>

JMBM, Los Angeles CA — Lead Full-Stack Developer

2019 | contract

Designed, architected, and built new turnkey intranet for Jeffer Mangels Butler & Mitchell law firm. Features included: searchable employee directory with ability to filter by department & practice; fuzzy matching algorithm to locate possible client activity in a daily feed of new court cases; custom Content Management System (CMS) for employees to add, edit, and remove site pages and content.

Laravel 5.8 + PHP 7 | MS SQL + IIS | Javascript+jQuery | Bootstrap 4

NewLogix, Chicago IL — Chief Architect & Dev Lead

2016 - 2018 | full-time

Product architect and lead responsible for end-to-end development of 2 related products: 'Synergy', a project management app with CMS and CRM-type features that allows utility companies to manage schedules & budgets for vendors they partner with; and 'Civix', an online portal for submitting and subsequent management of municipal permit or license applications.

Laravel 5.6 + PHP 7 | MySQL | Javascript+jQuery | EC2+RDS | Restful API
